

Interventional Radiology Services

Mountain Medical offers Interventional Radiology consultation, evaluation, and management for a broad range of medical conditions as well as image guided treatments.

Vascular/Cardiovascular Intervention

- AAA repair
- Peripheral arterial disease
 - Atherectomy
 - Angioplasty
 - Stenting
- DVT or PE thrombolysis/thrombectomy
- Arteriograms/Venograms, any site
- Recanalization of chronic vascular occlusion
- Treatment of May-Thurner Syndrome
- Endoleak repair
- IVC filter placement and removal
- Arteriovenous Malformation (AVM) Embolization
- Pseudoaneurysm repair

Renal/Urological Intervention

- Endovascular dialysis fistula creation
- Prostatic Artery Embolization for Hematuria/BPH
- Varicocele embolization
- Percutaneous nephrostomy
- Peritoneal dialysis access catheters
- Suprapubic catheter placement

Oncological Intervention

- Transarterial chemoembolization (TACE)
- Tumor ablation
 - Cryoablation
 - Microwave
 - Radiofrequency
- Bone ablation in combination with or without bone augmentation including:
 - Acetabuloplasty
 - Kyphoplasty
 - Sacralplasty
 - Vertebroplasty
- Bland embolization
- Intrathecal chemotherapy injections
- Single lumen & double lumen port-a-cath placements (arm or chest)

Women's Intervention

- Uterine Fibroid Embolization
- Pelvic congestion syndrome
 - Gonadal vein embolization
- Hysterosalpingogram
- Fallopian tube recanalization

5334 S Woodrow Street, Ste 101, Murray, UT 84107
1486 East Skyline Drive, So. Ogden, UT 84405

Phone: (801) 281-7777 **Fax:** (801) 263-5496

Additional Services Listed On Back
